

Safety Data Sheet

Product Identifier: More Shine Less Time™ for Vinyl, Plastic and Rubber

Stock Number: 91053

Date of the latest revision of the safety data sheet: 08-15-2017

Supercedes:

1 Identification

- (a) Product Identifier: **More Shine Less Time™ for Vinyl, Plastic and Rubber**
Stock Number: 91053
- (b) Other means of identification:
Synonyms: None Known
- (c) Recommended use and restrictions on use:
Recommended use: Automotive Appearance
Restrictions on use: Uses not described above.
- (d) Initial Supplier Identifier: Stoner Incorporated
Manufacture/Distributor: 1070 Robert Fulton Hwy.
Quarryville, PA 17566
Tel No.: 1-800-227-5538
Email: customerservice@stonersolutions.com
- (e) Emergency telephone number and any restrictions on the use of that number, if applicable: 1-800-424-9300 [CHEMTREC]

2 Hazard identification

- (a) Classification of the hazardous product, namely the appropriate category or subcategory of the hazard class identified in Subparts 2 to 19 of Part 7 or Subparts 1 to 11 of Part 8, or a name that is its substantive equivalent, or for Subpart 20 of Part 7 and Subpart 12 of Part 8, the category of the hazard class or a description of the identified hazard:
- Flammable Aerosol Category 1
Gases under pressure - Liquefied Gas
Aspiration Hazard Category 1
Skin Corrosion/Irritation Category 2
Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 3
- (b) Information elements referred to in section 3 of Annex 3 of the GHS and in paragraphs 3(1)(d) to (f) of these Regulations for each of those categories or subcategories. If the required information element is a symbol, either the name of the symbol or the symbol itself may be used:

GHS Hazard class symbols:

Signal word:

Danger

Hazard statements:

Extremely flammable aerosol; Pressurized container: may burst if heated; Contains gas under pressure; may explode if heated; May be fatal if

Safety Data Sheet

Date of the latest revision of the safety data sheet: 08-15-2017

Supercedes:

swallowed and enters airways; Causes skin irritation; May cause drowsiness or dizziness

Precautionary statements:

Prevention:

Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.

Response:

IF SWALLOWED: Immediately call a POISON CENTER/doctor. If on skin: Wash with plenty of water. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell. Specific treatment (see on this label). Do NOT induce vomiting. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Storage:

Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

Disposal:

Dispose of contents/container to a suitable disposal site in accordance with local/national/international regulations.

(c) Other hazards known to the supplier with respect to the hazardous product:

Physical hazards not otherwise classified None Known

Health hazards not otherwise classified None Known

3 Composition/information on ingredients

| Chemical Name | Common name and synonyms | CAS registry number and any unique identifiers | Concentration |
|------------------------|--------------------------|--|---------------|
| Hydrocarbon propellant | None Known | 68476-86-8 | 40 - 60 |
| Aliphatic hydrocarbons | None Known | 142-82-5 | 20 - 40 |

4 First-aid measures

(a) A description of necessary first aid measures, subdivided according to the different routes of exposure (inhalation, ingestion, skin and eye contact):

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If

Supercedes:

breathing is difficult, give oxygen.

Eye contact:

Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.

Skin Contact:

Wash clothing before reuse. Seek medical attention if symptoms persist. In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes. For liquid contact, treat for frostbite if necessary.

Ingestion:

Contact a physician, medical facility, or poison control center immediately. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. Aspiration into the lungs can cause serious damage. Do not induce vomiting.

(b) The most important symptoms and effects, whether acute or delayed:

May be fatal if swallowed and enters airways Causes skin irritation May cause drowsiness or dizziness

(c) An indication of immediate medical attention and special treatment needed, if necessary:

Aspiration during swallowing or vomiting may severely damage the lungs. This material is an aspiration hazard. Because of possible disturbances of cardiac rhythm, catecholamine drugs, such as epinephrine, should be used only in situations of emergency life support. This material is an aspiration hazard. Potential danger from aspiration must be weighed against possible oral toxicity when deciding whether to induce vomiting.

5 Fire-fighting measures

(a) Suitable and unsuitable extinguishing media:

Suitable extinguishing media:

Use CO2, foam or dry chemical.

Unsuitable extinguishing media:

No data available

(b) Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion:

This product contains a component(s) that is considered a flammable liquid, which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point. This product contains a component(s) that is considered an extremely flammable gas(es), which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point. "Empty" containers retain product residue and can be dangerous.

(c) Special protective equipment and precautions for firefighters:

No data available

6 Accidental release measures

Safety Data Sheet

Product Identifier: More Shine Less Time™ for Vinyl, Plastic and Rubber

Stock Number: 91053

Date of the latest revision of the safety data sheet: 08-15-2017

Supercedes:

(a) Personal precautions, protective equipment and emergency procedures:

No data available

(b) Methods and materials for containment and cleaning up:

Place absorbent materials into container and close it tightly. Dispose of container properly. Clean up with absorbent material. If runoff occurs, notify authorities as required. Avoid run-off into storm sewers and ditches which may lead to natural waterways. Ventilate contaminated area. Stop or reduce discharge if it can be done safely. Wear appropriate personal protective equipment (PPE). Remove all sources of ignition.

7 Handling and storage

(a) Precautions for safe handling:

Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition; they may explode and cause injury or death. Do not use near ignition sources. Avoid prolonged or repeated contact with skin. Avoid prolonged or repeated breathing of vapor. Normal precautions common to safe manufacturing practice should be followed in handling and storage. Use with adequate ventilation. This material can be harmful or irritating.

(b) Conditions for safe storage, including any incompatibilities:

Conditions for safe storage:

Normal precautions common to safe manufacturing practice should be followed in handling and storage. Empty container may contain residues which are hazardous. Store in a cool, dry, well ventilated area away from all sources of ignition. Store away from incompatible materials such as materials that support combustion (oxidizing materials) and corrosive materials (strong acids or bases). Do not store at temperatures above 122 degrees F.

Materials to Avoid/Chemical Incompatibility:

No data available

8 Exposure controls/personal protection

(a) Control parameters, including occupational exposure limit values or biological limit values and the source of those values:

Canada – Alberta – Occupational Exposure Limits:

apparent adverse effects).

Ventilation is required to maintain operator exposure below published exposure limits.

(c) Individual protection measures, such as personal protective equipment:

Respiratory Protection:

No respiratory protection required under normal conditions of use. Use NIOSH approved respirator where there is likelihood of inhalation of the product mist, spray or aerosol. A supplied air respirator should be used if ventilation is not sufficient to maintain exposure limits.

Eye and face protection:

Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid or airborne material. Have an eye wash station available.

Skin Protection:

The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact with skin.

Hand protection:

No data available

Other protective equipment:

No data available

General hygiene conditions:

Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling.

9 Physical and chemical properties

(a) Appearance, such as physical state and colour:

Physical state:

Aerosol can

Colour:

Clear Colorless

(b) Odour:

Mild

Light Hydrocarbon

(c) Odour threshold:

No data available

(d) pH:

Not applicable

(e) Melting point and freezing point:

No data available

(f) Initial boiling point and boiling range (°C):

No data available

(g) Flash point (°C):

No data available

(h) Evaporation rate:

Not determined

(i) Flammability, in the case of solids and gases:

No data available

(j) Upper and lower flammability or explosive limits:

Upper flammable or explosive limit, 9.5

Safety Data Sheet

10 Stability and reactivity

| | |
|--|---|
| (a) Reactivity: | No data available |
| (b) Chemical stability: | Stable. |
| (c) Possibility of hazardous reactions: | No data available |
| (d) Conditions to avoid, including static discharge, shock or vibration: | Ignition sources such as open flames, sparks, static discharges or glowing metal surfaces. Strong oxidizing agents. Avoid contact with: |
| (e) Incompatible materials: | No data available |
| (f) Hazardous decomposition products: | Burning can produce the following combustion products: Carbon dioxide and carbon monoxide. Various hydrocarbons. Formaldehyde. When heated to temperatures above 150°C in the presence of air, one of the ingredients in this product can form formaldehyde vapors. Formaldehyde vapor is harmful by inhalation; irritating to eyes; sensitizer to the respiratory system; an acute toxicant and a potential cancer hazard at concentrations greater than 0.75 ppm. |

11 Toxicological information

Description of the various toxic health effects and the data used to identify those effects:

| | |
|---|---|
| (a) Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact): | Skin |
| (b) Symptoms related to the physical, chemical and toxicological characteristics: | May be fatal if swallowed and enters airways Causes skin irritation May cause drowsiness or dizziness |
| (c) Delayed and immediate effects, and chronic effects from short-term and long-term exposure: | |
| Immediate effects from short term exposure: | |
| Inhalation Toxicity: | No data available |
| Skin Contact: | Passage of this material into the body through the skin is possible, but it |
