on whether to induce vomiting.

**(b) The most important symptoms and effects, whether acute or delayed:**

Causes serious eye damage

**(c) An indication of immediate medical attention and special treatment needed, if necessary:**

There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

## 5 Fire-fighting measures

**(a) Suitable and unsuitable extinguishing media:**

**Suitable extinguishing media:**

Use water spray, foam, dry chemical, or CO<sub>2</sub>.

**Unsuitable extinguishing media:**

No data available

**(b) Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion:**

Product is predominately water, and is not flammable. The solid ingredients are difficult to ignite. Product is water based material, containing minor amounts of combustible ingredients. In extreme fire conditions this material may present a floating fire hazard.

**(c) Special protective equipment and precautions for firefighters:**

Do not direct a solid stream of water or foam into hot burning pools, this may cause frothing and increase fire intensity.

## 6 Accidental release measures

**(a) Personal precautions, protective equipment and emergency procedures:**

No data available

**(b) Methods and materials for containment and cleaning up:**

Remove all sources of ignition. Place absorbent materials into container and close it tightly. Dispose of container properly. Clean up with absorbent material. Avoid run-off into storm sewers and ditches which may lead to natural waterways. Stop or reduce discharge if it can be done safely. Wear appropriate personal protective equipment (PPE).
